

## Home Learning

The work and play you do with your child at home is just as valuable as the learning that takes place at school.

In Hedgehog class we would like to hear about any achievements that takes place out of school. We enjoy sharing news with the class and then recording these achievements in the children's Learning Journals. A few examples...

- A photo of some biscuits your child has made.
- A note to say your child swam a length without armbands!
- A certificate from an after school club.
- A piece of writing or letters your child has written.
- A photo of your child riding their new bike.

Each half term we will give your child a sheet with six handprints for you to record your child's achievements. (Please always ask for more if needed!) Then pop it in to your child's book bag for us to share and display in class.

# All About Me

## Hedgehog Class

### Autumn Term (1) 2017

# Our Learning Journey

Starting school

Ourselves

Our senses

Healthy Bodies

Keeping safe

## What are the opportunities for learning?

- Becoming more aware of the human body and the importance of different parts
- Experiencing handling different materials
- Asking questions, investigating and exploring
- Enjoying stories and talking

### **We shall enrich our topic by:**

A visit to or from a medical professional.

A visit from the fire safety officer.

Discovering our 5 senses workshop.

Taking a walk around our locality-visiting the shop, church & village.
